The Premium Collection

Crowne Slate, Armourshake & Royal Estate

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Crowne Slate

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Crowne Slate laminated fiberglass shingles will provide your estate home or exclusive property with a lasting legacy of beautiful protection. They're designed to emulate the look and color of locally quarried natural stone. Only you will know how much less expensive they are. And any professional roofing contractor can easily install a Crowne Slate roof.

Their premium laminated fiberglass mat is saturated and stabilized with IKO-SBS modified asphalt for exceptional flexibility in all types of weather. This ultra-durable, ultra-strong rubberized material enables Crowne Slate shingles to resist hail, severe wind and temperature extremes, earning them a Class 4 Impact Resistance rating. What does that mean? In independent laboratory tests, a 2" steel ball is dropped from a height of 20' on shingles, or ice balls are fired at high-velocity towards shingles to make sure they resist the impact without damage, and our shingles have passed these tests. Discuss this with your insurance agent because depending on where you live, a roof of Class 4 Impact Resistance rated shingles may entitle you to a discount on your premium.

Choose Crowne Slate with total confidence, for unparalleled curb appeal and quality that lasts for years, even in the worst weather.

Enjoy the luxurious look of natural slate tiles.

- Built-in algae-resistant granules
- UL 2218/FM 4473 Class 4 Impact Resistance rating*
- 15-Year IKO Iron Clad Protection¹
- Limited Lifetime Warranty¹

²High Wind Application is required.

Who said you can't have everything? With IKO's Premium Collection of architectural laminated shingles, you can have it all – the ultimate in weather protection plus a distinctive designer look that will make your home the envy of the neighborhood.

The Premium Collection shingles have been precision engineered to exacting standards in order to create the luxurious look of natural slate tiles or cedar shakes without their associated maintenance worries and expense.

Because of the longevity of these premium shingles, you'll want to devote some care and consideration to choosing the perfect style and color of shingle that's just right for your home.

The Premium Collection offers some of the most stunning profiles and unique color blends you've ever seen in asphalt shingles. You're sure to find the distinctive look that will make the perfect statement, whether you want your home to stand out or simply blend into your neighborhood or natural surroundings.

Armourshake

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Armourshake mimics the interlaced look, deep cut and contoured profile of natural wood shakes. In some communities real wood shakes are not permitted because of their flammability. Armourshake shingles are more fire-resistant with the industry's highest Class A rating, allowing you to have the luxurious look of wood without the worry.

With Armourshake you can choose the weathered shake look you want immediately. They will deflect damaging sunlight and resist unsightly algae growth to keep the same new appearance well into the future. With cedar or other wood the finished look takes a couple of years to develop fully and the results do not always meet expectations.

Armourshake is available in five color blends with a dimensional profile and deep cuts that evoke the natural beauty, warmth, and charm of cedar wood shakes.

Experience the warmth, not the worry, of real wood shakes.

- Built-in algae-resistant granules
- Superior protection against wind uplift and water penetration
- UL 2218/FM 4473 Class 4 Impact Resistance rating*
- 15-Year IKO Iron Clad Protection¹
- Limited Lifetime Warranty¹

Crowne Slate, Armourshake & Royal Estate

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Here you can see for yourself the beautiful color blends available for Crowne Slate, Armourshake and Royal Estate architectural laminated shingles. Crowne Slate and Royal Estate resemble natural slate tiles and Armourshake mimics the interlaced look, deep cut and contoured profile of thick natural wood shakes.

Shingle Swatches and House Photography shown are as accurate as modern printing processes allow. Shingle swatches shown do not fully represent the entire color blend range of the shingles. To ensure complete satisfaction, please make your final color selection from several full size shingles and view a sample of the product installed on a home. Armourshake - Greystone

IKO's PRO4 Roofing System is setting the standard in protecting your home.

Shingles alone are sometimes not enough to protect your home. IKO has developed a superior multi-layered roofing system incorporating our industry-leading products.

The Premium Collection

All the shingles in this Collection – Crowne Slate, Armourshake and Royal Estate - are manufactured with the industry's most advanced technology and chosen by homeowners like you, who demand the best in quality, durability, performance and value. Along with your choice of shingle from the Premium Collection, IKO's highly recommended PRO4 Roofing System includes these fine accessory products:

Design your own roof with **ROOFViewer™**

Start by visiting our website at www.iko.com and try our exclusive **RoofViewer™ Interactive Shingle Selector Tool**. You can select a style of home and accessorize it with different colors of roof and trim or even upload a picture of your actual house!

Once you've narrowed down your choices, ask your roofing professional or IKO Sales Representative for actual samples of the shingles you're considering. Printing processes are close, but nothing compares to the real thing and colors on the computer are even more prone to variation.

Treat the shingle samples as you would paint chips and view them in different lighting conditions at different times of day. If you're going to select new trim or siding, take samples of those outdoors, and see how all the elements work together.

Choosing the right color is the most difficult decision for most homeowners. A new roof is a significant investment and you'll have to live with your color choice for a very long time. IKO offers you many beautiful color palettes, so take your time to find the one that's right for you and your home. You'll enjoy the results for years to come.

1. Eave Protection

GoldShield, ArmourGard, or StormShield Ice & Water Protectors

IKO's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.

2. Underlayment

RoofGard-Cool Grey Underlayment

Use our innovative RoofGard-Cool Grey synthetic underlayment for total deck protection.

3. Roof Starters

Leading Edge Plus Starter Strips or Armour Starter*

Fast, easy and convenient. IKO's Starter Strips are already cut to size saving valuable time during the installation of the first course of shingles. Compatible with most existing IKO Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal. *Armour Starter is embedded with granules that specifically match the colors of the Armourshake shingle. Applied as a starter strip they facilitate installation and further enhance the dimensional appearance of Armourshake shingles.

4. Ridge Cap Shingles

Hip and Ridge, Hip & Ridge Plus, Hip & Ridge 12 or Ultra HP™ High Profile Ridge Cap Shingles

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roof line.
